

# O.O.D.A. Loop based Officer Survival™

O.O.D.A. Loop based Officer Survival™ takes officer survival training to a new level by combining advanced officer survival tactics and techniques with a performance centered understanding of:

- How the O.O.D.A. Loop works for and against law enforcement officers.
- How memory is encoded and recalled for maximum benefit.
- How to maximize your work, training and mindset for survival.
- How to control fear, stress and anxiety.
- How to recognize and decipher danger signs, including previously unrecognized signs.

## Course Goals and Indicators of Success:

- Officers will have a better understanding of the realities of officers down in the line of duty.
- Officers will learn to read and recognize previously unseen/unnoticed danger signs.
- Officers will gain in depth knowledge about the O.O.D.A. Loop, training for proper memory encoding and other factors that play a direct role in officer survival on a daily basis.
- Officers will have a more tactical mindset, a better understanding of themselves and their adversaries.
- Officers will learn new ways to maximize their performance allowing them greater odds of success.
