Police Department

Janet Larson, CSOC Training Director
(ret.)

Supervisory Institute

Providing the tools and concepts for new supervisors to be
effective on day one!

Developed for Colorado Law Enforcement Agencies by
Colorado Law Enforcement Personnel

The Supervisory Institute is designed to provide participants from all
divisions of the agency with the foundation on which to build their
future as law enforcement managers. Individual modules will
introduce:

- Practical leadership concepts,
- How ethical standards relate to decision making and leadership,
- Strategies for effective communication skills, dealing with communication barriers, and conflict resolution,
- Current human resource and risk management requirements,
- An examination of the legal requirements for supervisors,
- The importance and practice of performance evaluations,
- An examination of the role of the first line supervisor in the success of the agency,
- Employee accountability for today's workforce.

Students will apply the principles presented in various job-related
contexts throughout the course.

The final day of class will bring together all the concepts taught with
a class project that will be evaluated both by the instructors and the
other students.

All instructors are Colorado law enforcement officers who have served at
command level.

If this course is hosted by a training region, enrollment is open to personnel
from that region only until one month prior to the start date of the class.

Class starts at 8:00 am each day.

Class limited to 25
