

Supervision of Police Personnel

➔ Class Description:

Supervision of Police Personnel (SPP) provides essential supervisory and management training for law enforcement professionals stepping into leadership roles. Designed for officers with little or no formal supervisory experience, this course builds the foundation needed to effectively lead teams and navigate day-to-day challenges within an agency.

Participants gain practical, real-world skills through expert-led instruction, focusing on:

- Communication and decision-making in supervisory roles
- Managing relationships with subordinates, superiors, and the public
- Addressing personnel challenges and performance issues
- Understanding human behavior in a law enforcement setting
- Applying leadership strategies in both field and administrative environments

Through a combination of classroom instruction and applied learning, students leave better prepared to make confident decisions, lead effectively, and support their teams in today's evolving public safety landscape.
