

MAINTENANCE OFFICER COURSE

BICYCLE

4-DAY BICYCLE MECHANIC TRAINING COURSE

OPERATIONAL READINESS: Specialized bicycle maintenance training for law enforcement, fire, military security fleet units. Prioritize drivetrain reliability, brake safety, and rapid field protocols to ensure 100% uptime.

01. Foundational Mechanics

Precision, torque safety, and essential tool identification for professional workspace optimization.

02. Tires & Mission-Critical Repairs

Rapid wheel removal, tube swaps, and casing inspections.

03. Drivetrain & Hub Systems

Cassette service, wear pattern diagnostics, and bearing adjustments to maximize use.

04. Precision Shifting & Braking

Shift protocols, hanger alignment, pad bed-in protocols, and derailleur system tuning.

05. Wheel Truing

Geometric correction, spoke tensioning, and lateral alignment to restore structural wheel integrity.
